# About **Fixotec**

**Fixotec** is a leading solution provider of modular supports and vibration control systems. Founded in 1996, Fixotec is headquartered at Burgbernheim, Germany. Fixotec currently is part of the Symbionet Group (belongs to the Müller family –Inventors of Pipe Clamps in Germany).

As a leading manufacturer of fixing technology for plumbing, heating, and ventilation systems, we place our value on quality. To ensure this, our complete range of products are German-Engineered.

With high-quality products and comprehensive service, we assist our customers in overcoming challenges in the areas of fastening technology and sound insulation. We see ourselves as being in partnership with our customers and present ourselves to the market as a systems supplier.

**Fixotec stands out for its people, agility, and reliability.**

## **Manufacturing**

Fixotec employs methods and efficient manufacturing procedures, which, when combined with the expertise of experienced personnel, result in high-quality goods. Our benchmark in materials, design details, and finishes are very high to provide clients with a product they can trust in structure and functioning.

To cater to our German standards of manufacturing, we have extensive expertise with the following: Rail Profiling, Manual welding (MIG, MAG, TIG), Robotic Welding, Spot welding, CNC Machining, Bending punching presses, Cutting and drilling, Stamping, etc.

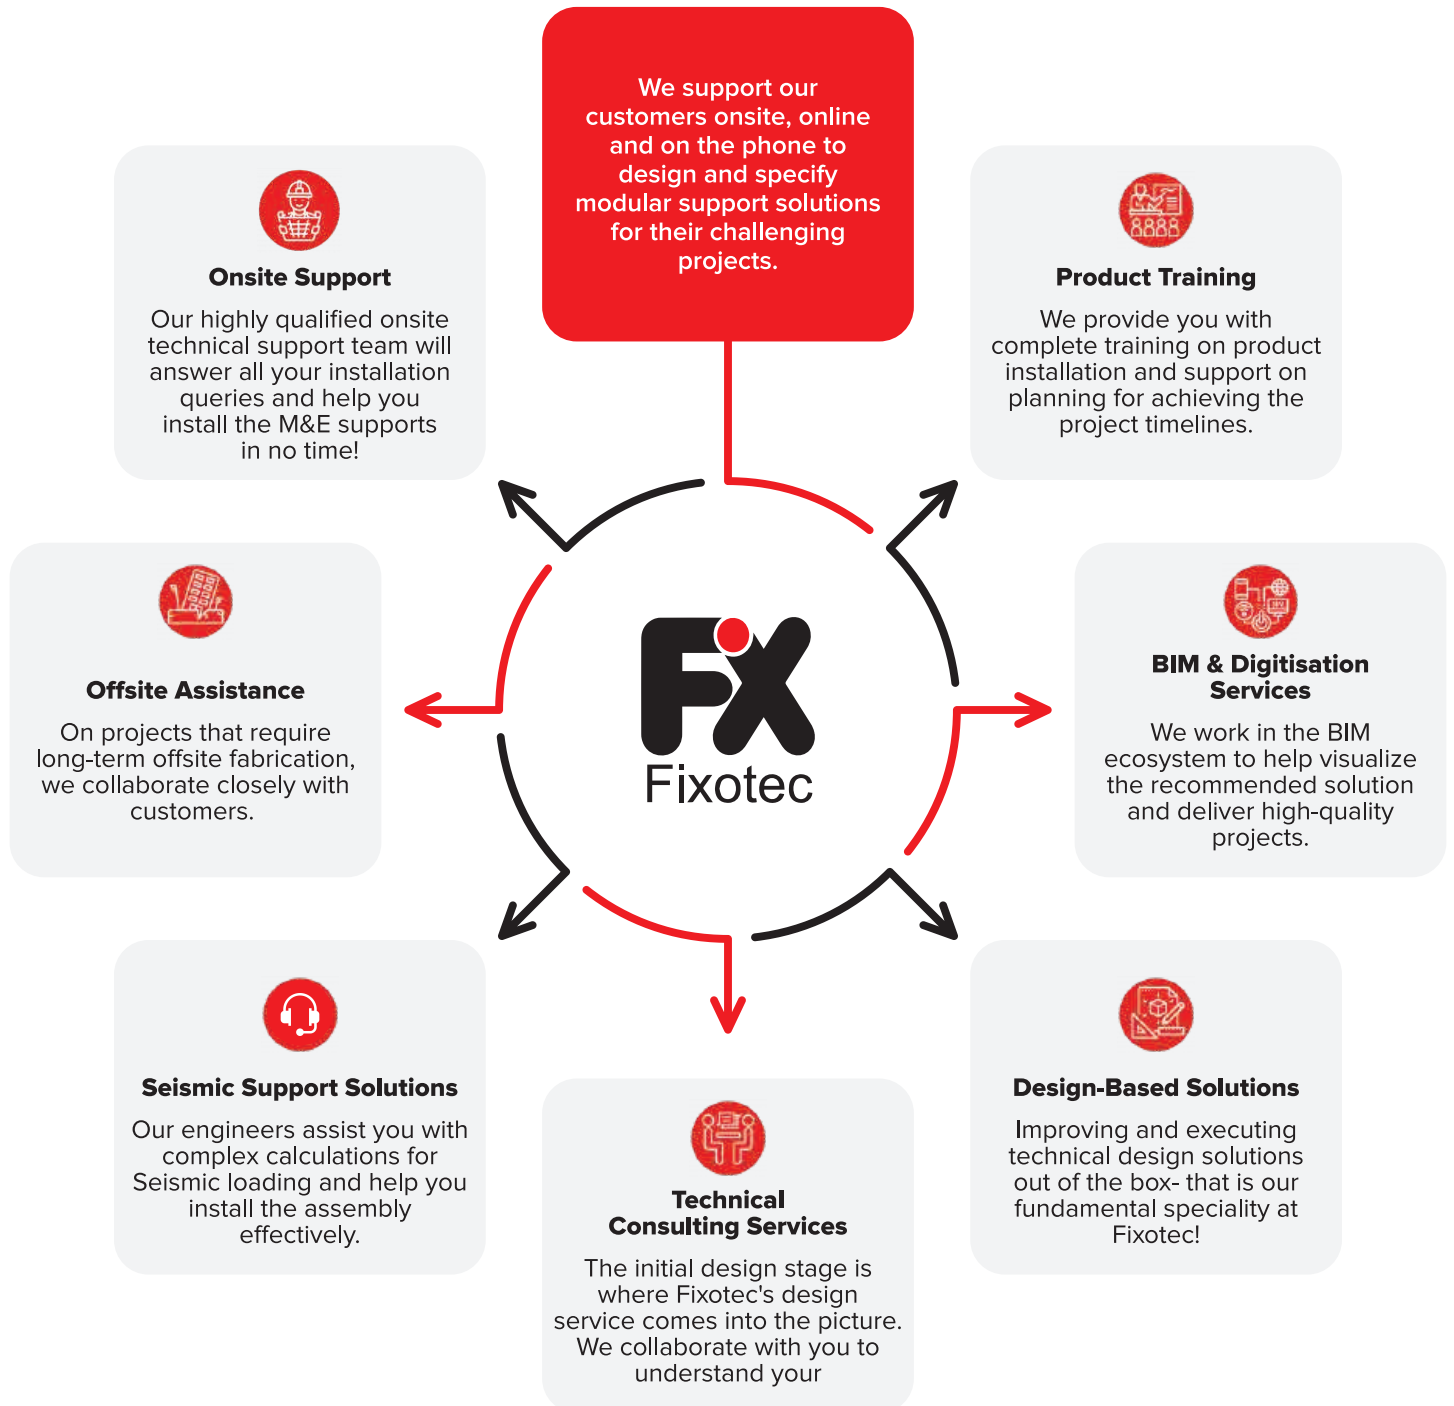

## **Our Certifications & Quality**

Our top-quality performance was assessed by the international certification body DNV-GL, and the Quality management system meets the requirements of ISO 9001.

Our products are certified with the following notable certification bodies: UL (Underwriters' Laboratories), FM (Factory Mutual), ETA (European technical assessment with CE mark), VdS (by German Insurance Association-GDV),
